PROJECTS

Hostel Hunt App

- Android app that provides all information, images of PG's and To-Let Rooms within a city. Owners of respective property can upload their property with this mobile app. Users can login into the app and search their desired room or PG's within a city by applying many filters. This helps the user to find their perfect room in a city easily.
- **Flutter, Firebase Auth, Google Maps API, Firebase storage, Firebase cloud Messaging**

Google Developer Student Club LNCT App

- Developed Android app for GDSC with clean UI which shows all events conducted by GDSC LNCT.
- **Flutter, Dart, Firebase Cloud Messaging, Firebase Firestore, Firebase Storage**

College Attendance App

- Flutter Android app which uses http package to fetch attendance from AccSoft Website and displays it in a simple and attractive way.
- **Flutter, Dart, Rest API**

EDUCATION
